# Mary Mother of the Church

## Written History of St. Pius X Parish (1960-2000)

Mary, Mother of the Church has two sources of heritage: St. Thomas More Parish and St. Pius X Parish. Our parish was created on April 9, 2000, from the unity of these two parishes and the basic story is shared on the Legacy Plaque in the Parish Hall.

Additionally, the heritage of St. Thomas More Parish is inscribed in a 1961 "yearbook" and in its 1997 pictorial directory. It is also reflected in the church.

St. Pius X Parish never had a written history. That has changed! You will find it on the parish website. Many have submitted their stories and offered support to complete this project, but a note of special gratitude goes to Donna Omernik who truly made this possible. Enjoy!

### AN ACT OF SPIRITUAL COMMUNION

My Jesus, I believe that You are present in the Most Holy Sacrament.

I love You above all things,  
and I desire to receive You into my soul.

Since I cannot at this moment  
receive You sacramentally,

come at least spiritually into my heart.

I embrace You as if You were already there and  
unite myself wholly to You.

Never permit me to be separated from You.  
Amen.

### DIOCESE OF LA CROSSE GUIDELINES FOR REPORTING INSTANCES OF CHILD ABUSE

The Diocese of La Crosse, through its policies and procedures, seeks to provide a prompt, appropriate and compassionate response to reporters of sexual abuse of a child by any diocesan agent (bishop, priest, deacon, employee, religious, vendor or volunteer). Anyone wishing to make a report of an allegation of sexual abuse should send that report to Mrs. Karen Becker, Complaint Intake Agent, at the Diocese of La Crosse, P.O. Box 4004, La Crosse, WI 54602-4004. Alternatively, you can contact Mrs. Becker at 608.791.0179 or [intakeagent@diolc.org](mailto:intakeagent@diolc.org). The reporting form is available through the Diocese of La Crosse Office of Safe Environment or on the diocesan website at: [diolc.org/safe-environment/reporting](http://diolc.org/safe-environment/reporting). **Individuals are also encouraged to take their reports directly to civil authorities.** Copies of the diocesan policy are available through your local parish and on the diocesan website. If you have any questions about the Diocese of La Crosse and the implementation of the *Charter for the Protection of Children and Young People*, please contact Teresa Brown, Diocese of La Crosse, at 608.791.2679; or [tbrown@diolc.org](mailto:tbrown@diolc.org).

### Building our Future Together

Work continues on our summer-fall building projects. The original estimated completion time was projected to be the end of September. However, the revised substantial completion date has been extended to mid-November. The delay has been due to the equipment-shipping delays. The manufacturers tell us some of their vendors for component parts are experiencing delays due to a variety of reasons – including some related to the Covid Pandemic, e.g. workers being quarantined or restricted due to exposure to the virus.

At our most recent construction update meeting, we were assured we will have heat in the church by mid-October – maybe even by *early* October! The large air-handling unit (that supplies the church) was scheduled to be shipped this past week and to be delivered by this coming week. That piece is an important component to completing the Heating, Ventilation and Air Conditioning work (HVAC).

The lighting replacement work will also begin this week as well as the masonry repairs around the stained glass windows. Those projects are expected to be completed in November.

We are pleased to advise new Ionization Generators will be added to our Air Handling Units (AHU) to help purify the air circulated throughout our buildings. Our original HVAC contract included cleaning the ductwork. The cleaning quote was \$18,300. However, it was quickly discovered that duct cleaning was not going to be possible, as the cleaning equipment would actually damage the ductwork. We asked HSR and Buchner's to explore air purification alternatives. The Ionization Generators are mounted on the supply fan's inlets and they produce negatively charged ions that which attach to air borne impurities traveling through the return air system. Ionization make the particles more easily trapped by the AHU filters.

The Ionization Generators are approximately \$2,500 more than the cleaning cost would have been. However, the cost includes installing the ionization unit on the AHU that serves the Parish Hall as well as the AHU in the rectory.

May the Lord continue to bless our parish and "give success to the work of our hands" (Ps. 90) as we Build Our Future Together!
